RE: Mold Abatement activities at the Largo Seminole Branch Post Office, Largo, Florida

Mr. Zenn,

It was a pleasure to have you company work for the United States Postal Service on the above referenced activity. The professionalism with which you submitted the bid package to the completion of the job was phenomenal. The expertise that we had on the job, the manner in which your workers took charge speaks well for your organization. The mold abatement process took time to coordinate and plan and your services and resources speak volumes as to the capability and abilities of the well trained personnel you employ. I am will to give you a most positive reference, if ever needed. Please contact me again and thank you for a job well done.

Respectfully submitted
